Investment Objective	<p>The investment objective of the scheme is to generate capital appreciation and income by predominantly investing in arbitrage opportunities in the cash and derivatives segment of the equity market and by investing the balance in debt and money market instruments.</p> <p>However, there is no assurance or guarantee that the investment objective of the scheme will be achieved.</p>		
Asset Allocation Pattern of the Scheme	<p>Under normal circumstances, the asset allocation would be as follows:</p>		
	Indicative allocations (% of total assets)		Risk Profile
	Minimum	Maximum	High/Medium/Low
Equity & Equity related instruments	65%	100%	High to Very High
Debt and money market instruments*	0%	35%	Low to Medium
<p>*TREPS, Government Repo / Reverse Repo (in Government Securities), Treasury bills, Government securities (Issued by both Central and State governments) and any other like instruments as specified by the Reserve Bank of India from time to time and approved by SEBI from time to time.</p> <ul style="list-style-type: none"> Investment in equity derivatives can be made upto 90% of the net assets of the scheme. Derivatives including index futures, stock futures, index options, & stock options, etc. as part of hedged / arbitrage exposure. The Scheme shall not invest in debt derivatives. The margin money requirement for the purposes of derivative exposure will be held in the form of Term Deposits (SEBI circular No. SEBI/IMD/CIR No. 1/91171 /07 dated April 16, 2007, SEBI/IMD/Cir No.7/129592/08 dated June 23, 2008, SEBI/HO/IMD/DF4/CIR/P/2019/093 dated August 16, 2019 and SEBI/HO/IMD/DF2/CIR/P/2019/101 dated September 20, 2019), Government Securities, T-bill cash or cash equivalents or as may be allowed under the Regulations. The margin money deployed on derivative positions would be included in the debt and money market instruments category. The Scheme will not invest in foreign securities, securitised debt and equity linked debentures. The scheme will not invest in debt instruments with special features as referred to in SEBI circular dated March 10, 2021, debt instruments having credit enhancements or structured obligations. The Scheme shall not lend securities amounting to more than 20% of the net assets of the Scheme and not more than 5% of the net assets of the Scheme will be deployed in Stock lending to any single intermediary. The Scheme will enter into securities lending in accordance with the framework specified by SEBI in this regard. The Scheme may enter into short selling transactions in 			

	<p>accordance with the framework relating to short selling specified by SEBI. The Scheme may also participate in repo of the money market.</p> <ul style="list-style-type: none"> • The cumulative gross exposure through equity, derivative positions, Debt and money market instruments, repo transactions and such other securities/assets as may be permitted by the Board from time to time shall not exceed 100% of the net assets of the Scheme, subject to regulatory approval, if any. • The scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate inter- scheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund. • Considering the inherent characteristics of the Scheme, equity positions may have to build up gradually and also be sold off gradually. This would necessarily entail having a large cash position before the portfolio is fully invested and during periods when equity positions are being sold off to book profits/losses or to meet redemption needs. The deviation to the above asset allocation shall be rebalanced within a period of 30 days. Where the portfolio is not rebalanced within 30 Days, justification for the same shall be placed before the Investment Committee and reasons for the same shall be recorded in writing.
<p>Risk Profile of the Scheme</p>	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment.</p> <p><u>Scheme specific Risk factors are summarized below:</u></p> <p>A.Schemes investing in Equities: Equity and equity related securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made in the scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances.The scheme may invest in growth stocks which may be more volatile than the market in general and may react differently to economic, political and market developments and to specific information about the issuer.</p> <p>B. Risks associated with the Scheme’s rule based investment strategy: The scheme allocates its assets and selects securities using a rule based active approach based on proprietary protocols. These protocols are derived based on analysis of various market, macroeconomic and fundamental factors described below. Based on the emerging information and analysis, these protocols / rules may change from time to time.There is no guarantee that these rules will generate higher returns compared to the benchmark.</p> <p>C. Risk Associated with the Scheme’s Arbitrage Strategy: The Scheme proposes to invest in equity and equity related instruments by identifying and exploiting price discrepancies in cash and derivative segments of the market. These investments by nature are volatile as the prices of the underlying securities are affected by various factors such as liquidity, time to settlement date, news flow, spreads between cash and derivatives market at different points of time, trading volumes, etc.</p>

D. Risk Associated with Debt and money market Securities:

Debt and money market instruments under this document includes TREPS (or any similar instrument), Repo/Reverse Repo (in Government Securities), Treasury bills, Government securities (Issued by both Central and State governments) and other like instruments as specified by the Reserve Bank of India from time to time and approved by SEBI from time to time.

Price-Risk or Interest-Rate Risk: Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase.

Credit Risk: In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in TREPS, Repo/Reverse Repo (in Government Securities), Treasury bills, Government securities (Issued by both Central and State governments) Government securities, there is relatively no credit risk to that extent.

Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today's characteristic of the Indian fixed income market.

Reinvestment Risk: Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

Pre-payment Risk: Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.

Tri Party Repo through CCIL (TREPS): The mutual fund is a member of the securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

E. Risks Associated with Trading in Derivatives :

Trading in derivatives carries a high degree of risk although they are traded at a relatively small amount of margin which provides the possibility of great profit or loss in comparison with the principal investment amount. Thus, derivatives are highly

leveraged instruments. Even a small price movement in the underlying security could have an impact on their value and consequently, on the NAV of the Units of the Scheme.

F. Investments by the Scheme in other schemes:

The Scheme may invest in other scheme(s) managed by the AMC or in schemes of other mutual funds, provided such investments are in conformity with the investment objectives of the Scheme and in accordance with terms of the prevailing SEBI Regulations.

For details on scheme specific risk factors, investors are requested to read SID.

Risk Management Strategies:

A. Risk Associated with Equity and equity related instruments:

Concentration Risk: The Scheme will try and mitigate this risk by investing in a large number of companies so as to maintain optimum diversification and keep stock-specific concentration risk relatively low.

Market Risk: The scheme is vulnerable to movements in the prices of securities invested by the scheme, which could have a material bearing on the overall returns from the scheme. Market risk is a risk which is inherent to an equity scheme. The Schemes may use derivatives to limit this risk.

Liquidity risk: As such the liquidity of stocks that the fund invests into could be relatively low. The fund will try to maintain a proper asset-liability match to ensure redemption / Maturity payments are made on time and not affected by illiquidity of the underlying stocks.

Rule based investment: The investment in the equity stocks will be selected and weighted using factor-based investment techniques that aim to achieve a mix of attributes considered supportive of long term performance and investments shall be made on the basis of pre-defined rules. To maintain the relevance of these rules in changing market conditions, the AMC may review and update the rule from time to time.

B. Risk associated with Debt and money market Securities:

Liquidity risks: Liquidity Risk can be partly mitigated by diversification, staggering of maturities as well as internal risk controls that lean towards purchase of liquid securities.

Interest Rate Risk: Changes in interest rates affect the prices of bonds. If interest rates rise the prices of bonds fall and vice versa. A well-diversified portfolio may help to mitigate this risk.

Volatility risks: There is the risk of volatility in markets due to external factors like liquidity flows, changes in the business environment, economic policy etc. The scheme will manage volatility risk through diversification.

Reinvestment Risk: This risk refers to the interest rate levels at which cash flows

received from the securities in the Schemes are reinvested. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed. Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.

C. Risk associated with investing in Derivatives

The Scheme may invest in derivatives for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. Fund managers will endeavor to use derivatives which are relatively liquid and traded frequently on the exchanges. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID. No OTC contracts will be entered into.

D. Risks associated with Securities Lending & Borrowing and Short Selling

At present, there is no significant activity in the Securities Borrowing and Lending market. However, we understand the risks associated with the securities lending business and the AMC will have appropriate controls (including limits) before initiating any such transactions.

E. Risks associated with investment in schemes of mutual fund

The AMC will have appropriate controls (including limits) before investing in schemes of mutual funds.

The Mutual Fund / Trustee / AMC reserves the right to reverse the transaction of crediting Units in the unitholder's account, in the event of non realisation of any cheque or other instrument remitted by the investor.

FOR INVESTORS WHO OPT TO HOLD UNITS IN DEMAT MODE:

Single Consolidated Account Statement (SCAS), based on PAN of the holders, shall be sent by Depositories, for each calendar month within 15th day of the succeeding month to the unitholders in whose folio(s)/demat account(s) transactions have taken place during that month. SCAS shall be sent by Depositories every half yearly (September/ March), on or before 21st day of succeeding month, detailing holding at the end of the sixth month, to all such unitholders in whose folios and demat accounts there have been no transactions during that period.

In case of demat accounts with nil balance and no transactions in securities and in mutual fund folios, the depository shall send account statements in terms of regulations applicable to the depositories.

Consolidation shall be done on the basis of Permanent Account Number (PAN). In the event the folio/demat account has more than one registered holder, the first named Unit holder/Account holder shall receive the SCAS. For the purpose of SCAS, common investors across mutual funds/depositories shall be identified on the basis of PAN. Consolidation shall be based on the common sequence /order of investors in various folios/ demat accounts across mutual funds/demat accounts across depository participants.

In case of multiple accounts across two depositories, the depository with whom the demat account has been opened earlier will be the default depository which will consolidate the details across depositories and Mutual Fund investments and dispatch the SCAS to the unit holders.

Unit holders whose folio(s)/demat account(s) are not updated with PAN shall not receive SCAS. Unit holders are therefore requested to ensure that their folio(s)/demat account(s) are updated with PAN. For Unit holders who have provided an email address in KYC records, the SCAS will be sent by email. The Unit holders may request for an account statement for mutual fund units held in physical mode.

In case of a specific request received from the Unit holders, an account statement shall be provided to the unit holders within 5 business days from the receipt of such request.

No account statements will be issued to unit holders opted to hold units in demat mode, since the statement of account furnished by depository participants periodically will contain the details of transactions. SCAS sent within the time frame mentioned above is provisional and is subject to realisation of payment instrument and/or verification of documents, including the application form.

A CAS detailing holding across all schemes of all mutual funds at the end of every six months (i.e. September/ March), shall be sent by mail/e-mail on or before 21st day of succeeding month, to all such Unit holders in whose folios no transaction has taken place during that period. On receipt of the KYC documents from the Fund, the KRA shall send a letter to the investor within SEBI stipulated timelines, confirming the details thereof.

Once the investor has done KYC with a SEBI registered intermediary, the investor need not undergo the same process again with another intermediary but can submit the letter/acknowledgment issued by the KRA.

It is mandatory for intermediaries including mutual funds to carry out IPV of its new investors. The IPV carried out by any SEBI registered intermediary can be relied upon by the Fund. NJ Asset Management Private Limited and NISM/AMFI certified distributors who are Know Your Distributor (KYD) compliant are authorized to undertake the IPV for mutual fund investors. Further, in case of any applications received directly (i.e. without being routed through the distributors) from the investors, the Fund may rely upon the IPV (on the KYC Application Form) performed by the scheduled commercial banks.

Existing KYC compliant investors of the Fund can continue to invest as per the current practice. However, existing investors are also urged to comply with the new KYC requirements including IPV as mandated by SEBI.

Application Form not accompanied by KYC Application Form or letter/acknowledgment issued by KRA may be rejected by the Fund. The KYC compliance status will be validated with the records of the KRA. AMC reserves the right to call for any additional information from the investors/applicant/reject applications/subsequent application in order to fulfill the

requirements of PMLA norms prescribed by SEBI/PMLA Regulation from time to time.

FATCA/CRS due diligence will be directed at each investor / Unit holder (including joint investor/Unitholder) and on being identified as a reportable person, all the folios will be reported. In case of folios with joint holders, the entire account value of the investment portfolio will be attributable under each such reportable person. An investor / Unit holder will therefore be required to comply with the request of the AMC / Mutual Fund to furnish such information as and when sought by the AMC for the AMC / Mutual Fund to comply with the information reporting requirements stated in IGA/MCAA and circulars issued by SEBI / AMFI in this regard. The information disclosed may include (but is not limited to) the identity of the investors/Unitholder(s) and their direct or indirect beneficiaries, beneficial owners and controlling persons. Investors / Unitholders should consult their own tax advisors regarding FATCA/ CRS requirements with respect to their own status.

The AMC/Mutual Fund reserves the right to reject any application/ freeze any folio(s) held directly or beneficially for transactions in the event the applicant/Unitholder(s) fail to furnish the relevant information and/or documentation in accordance with FATCA/CRS provisions and as requested by the AMC/Mutual Fund.
