The Fund offers flexible and convenient Systematic Investment Plan (SIP) facility. To illustrate the advantages of SIP investments, this is how your investments would have grown if you had invested say Rs. 10,000 systematically on the first Business Day of every month over a period of time in the Growth Option of Respective Scheme.

The returns are calculated by XIRR approach assuming investment of Rs 10000/- on the 1st working day of every month. XIRR helps in calculating return on investments given an initial and final value and a series of cash inflows and outflows with the correct allowance for the time impact of the transactions.

Data as on October 31, 2023.
